IQAC INITIATIVES

IQAC INITIATES

QAC of Wavoo Wajeeha Women's College has initiates quality enhancement and plays a pivotal role in maintaining and monitoring the academic, extra-curricular and administrative aspects of the college. In this view, the IQAC supports the management and principals in the process of strategic decisions and implementation of quality enhancement. The primary aim of IQAC is to develop a holistic environment by making conscious, consistent, and catalyst improvements in the overall performance of the institution.

1. WAJEEHA SKILL ACADEMY

To enhance students' employability skills, soft skills, language and communication skills, ICT and Computing skills and life skills IQAC introduced Wajeeha Skill Academy where the following skill-based courses have been initiated

2. EMPLOYABILITY SKILLS

To develop employability skills, Wajeeha Skill Academy has promoted TNPSC coaching. The training has been beneficial for students.

3. SOFT SKILLS:

It is important to develop soft skills during the final year in order to be able to take advantage of numerous benefits that will extend beyond the classroom and into a future career and personal life. Such skills complement academic achievements and contribute to the holistic development of a well-rounded individual.

4. LANGUAGE AND COMMUNICATION SKILLS:

Acquire proficiency in additional languages, enhancing your global communication. Islamic Theology and Quran reading is introduced. To up skill written and verbal communication skills to convey ideas clearly, persuasively, and professionally courses like spoken English and Hindi are introduced. Students can also learn essential communication skills like active listening, conversation skills, and presentation techniques. This helps in creating a positive impact in their professional and personal lives.

- **ICT and Computing skills:** To acquire proficiency in using digital tools, software, and platforms relevant to relevant fields of study DTP, Tally, and Basic computers have been introduced

- Life Skills: Wajeeha Skill Academy also promotes courses like tailoring, artwork, hand embroidery, jewelry making, and pillow making to make students self-employed.

5. GREEN INITIATIVES:

Sustainability practices are being implemented on campus, including waste reduction, energy conservation, and eco-friendly initiatives such as solar panels, free refreshments, and tea offered to staff in silver cups are some of the initiatives being implemented on campus.

6. E-BALLOT SYSTEM

As part of our college union's election process, we use an e-ballot system for selecting office bearers. Students can cast their votes using computers arranged by class. The results of the election will be announced promptly.

7. ONE RUPEE SCHEME

This One Rupee Scheme is one of the initiatives of the IQAC to assist students of weaker sessions on a daily basis with their fees or other emergency needs by collecting Rs. 1 from them on a daily basis

8. INDUSTRY-ACADEMIA COLLABORATION

Facilitating partnerships with industries Nehru Institute of Technology in Coimbatore, DCW in Sahupuram. MOU is signed for guest lectures, internships, and real-world projects to bridge the gap between academia and the guest lectures, internships, and real-world projects to bridge the gap between academia and the job market.

9. EDC ENTREPRENEURSHIP DEVELOPMENT CELL

An Entrepreneurship Development Cell (EDC) is a specialized entity within educational institutions or organizations that aims to foster and support entrepreneurial activities among students, alumni, and sometimes even the local community by conducting a Business desk where students exhibit daily stalls in their leisure time at a sales fair annually. The primary goal of an EDC is to nurture a culture of innovation, creativity, and business acumen. EDCs monitor the progress of the entrepreneurial ecosystem on the college campus. They track key performance indicators and provide periodic evaluations to help

studentspreneur refine their strategies. ED cell of Wavoo Wajeeha Women's College is a member of ED II Hub, Manonmaniam Sundaranar University, Tirunelveli.

10. START UP CELL

Start-Up Cell plays a vital role in nurturing the spirit, providing education, mentorship, resources, and networking opportunities for individuals looking to start and grow their own businesses. The start-up cell of Wavoo Wajeeha Women's College has signed an MOU with Nehru Institute, Coimbatore and organised FDPs, Seminars on IPR for entrepreneurs and much more to cultivate start-up mindset among students,

11. E- GOVERNANCE

Nirals app has been installed for Teaching learning and administration purpose. The IQAC has initiated the access of digitalization from applying for course, payment of fee, knowing their updates through college website. In addition to that online learning has been initiated to students through official YouTube channel of college for regular courses and Add-on – Course. They have also been motivated for SWAYAM like enhancing courses.

12. Lunch Box Scheme

Our College takes great pride in introducing the "Wavoo College Lunch Box Scheme," a student-focused initiative aimed at ensuring affordability and accessibility to nutritious meals. This program, facilitated by rotating responsibilities among different departments, not only offers diverse and quality meals at a minimum rate but also supports students who may face challenges bringing their lunch due to financial constraints or time limitations. Beyond nourishment, the scheme fosters a strong sense of community, teaches valuable life skills, and positively impacts academic performance. It embodies Wavoo College's commitment to holistic student development and reflects our dedication to creating a supportive and inclusive educational environment.

13. HYDROPONICS FARMING

Hydroponics Farming technique have been initiated by the IQAC at our college to enrich our college environment. Due to heavy salt deposits near the beach, traditional planting became difficult. By utilizing soilless cultivation methods, hydroponics offers a solution. The IQAC played a pivotal role in implementing this initiative successfully. The

hydroponic technique has enabled us to overcome soil limitations and foster a greener and more sustainable environment

14. WASTE DECOMPOSER

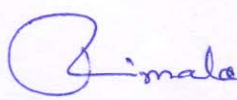

The IQAC at our college has an initiative to convert organic waste into valuable manure. Decomposers, also known as organic waste decomposers, play a crucial role in breaking down organic matter into valuable compost. These decomposers consist of beneficial microorganisms that accelerate the decomposition process. To culture the decomposer the following method is followed. 200 liters of water with 2 kg of jaggery added with basen or any powdered 2 Kg of pulses and with addition to it 1 box of waste decomposer is the culture medium for the growth of micro organism extracted to get the organic decomposer and utilized for plantation. This is very economical and purely organic. It has been purchased from Ghaziabad, Delhi. This method of utilizing organic waste for the production of a decomposer is highly economical and environmentally friendly. By diverting organic waste from landfills and transforming it into a valuable resource, we contribute to sustainable waste management and reduce the environmental impact of waste.
